York County Ag
Initiative Letter_...

A few suggested edits. I will not dictate what you call these (assessments vs. inspections) but agree it should be consistent.

David and Suzanne,
Here's my first crack at revising/updating the letter that we will be sending to 30-40 individual York County farmers. Please take a look and let me know your thoughts/comments.
Thanks,
Mark

I'll work on updating our earlier letter and send it to you both for review/comment next week.
So far, I've identified ~25 farms in York County to prioritize for these letters, with ~22 being located in ag-impaired watersheds throughout the county.

Update – Agenda added. Emphasis will be on a status update of the compliance inspections. If additional time is needed for other topics I can arrange a follow up call. Thanks!

Apologies – I hit the wrong day. This is for 10/28.

EPA is requesting a conference call shortly after 10/15 to discuss the first status report of compliance inspections, the timing of the York County inspections that EPA will be performing and possibly the grant condition.

Nicki indicated Oct 28 from 1-2:30 was free. If you prefer 1:30-2:30 I can revise the time of the meeting.

Thanks,
Suzanne
